#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/20/2006 has been entered.

***Claim Objections***

Claims 3-5 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The above claims do not fairly further limit independent apparatus claim 1 because the above claims recite only limitations dealing with the manner or method in which the claimed apparatus is to be employed or the workpiece to be worked upon (either the type of coolant to be employed with respect to claims 3-5, or the operation in which the apparatus is to be employed in with respect to claims 8 and 12). It has been well settled that the manner or method in which an apparatus is to be employed cannot be relied upon to fairly further limit claims to the apparatus itself. See MPEP 2114 and *In re Casey*, 152 USPQ 235.

***Response to Arguments***

Applicant's arguments filed on 7/20/2006 have been fully considered but they are not persuasive. Applicant's argument that claims 3-5, are now properly further limiting because the fluids to be employed now positively recited are not persuasive because again, the materials or workpieces to be operated on or used by an apparatus cannot be relied upon to further distinguish claims to the apparatus itself. See MPEP 2115.

***Allowable Subject Matter***

Claims 1, 2, 6, 9, 10 and 26-41 are allowed at least because none of the cited prior art shows or fairly suggests the use of the instantly claimed apparatus employing the means for providing relative movement, which is specifically recited in independent claim 1 and recited in means plus function format in the other independent claims, where the means is defined in the specification at paragraph 0070 and figures 12-14 as stated by applicant in the response filed on 7/20/2006.

***Conclusion***

This application is in condition for allowance except for the following formal matters:

The objection to claims 3-5 as stated above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
